

Data Protection Guide for CRC Club Championships

- Runners must be willing to allow their Date of Birth and gender to be shared with the Club Championship Captains to enable age-grading to be determined.
- An excel spreadsheet containing full names, Date of Birth, gender, points eligibility, finishing position, finishing time, age-grading times, and points awarded for all competitors in each race, will be maintained by the Club Championship Captains.

*A request can be made to view this spreadsheet at any time (minus other people's personal details). A request may also be made by an individual to remove their data from the spreadsheet.

- Any disputes must be made in writing to the Club Championship Captains no more than one month after the event in question.
- Adjudication will be made by the Club Captains and Chairman.
